“UET’S ROLE WITH COMMENDABLE DELIVERANCE IS PIVOTAL IN ENERGY AND DEVELOPMENT PROJECTS: CHIEF MINISTER PUNJAB MIAN MUHAMMAD SHAHBAZ SHARIF”

“MATTER OF PRIDE FOR UET TO CONTRIBUTE IN CPEC: VC UET”

HSR Trainee Engineers Certificate Distribution Ceremony

CPEC will definitely change the future of Pakistan which is unprecedented evidence of friendship between Pakistan and China. It was expressed by Chief Minister Muhammad Shahbaz Sharif while addressing in certificate distribution ceremony of engineers who completed first phase of training for Sahiwal Coal Power Project from University of Engineering and Technology, Lahore in collaboration with Chinese Energy Company Huang Shandong Ruyi, held at UET main campus on 9th April 2016. He said that the offers and services of China in energy sector of Pakistan is strengthening the relations between both countries. It will definitely eliminate the power crisis of Pakistan and provide relief to industry and masses. CM urged youth to participate and be empowered with skills from the projects of China Pakistan Economic Corridor, to stabilize and ensure the bright future of Pakistan. He considered the learning of Chinese language as an essential element for the success and real destination of CPEC.

CPEC will definitely change the future of Pakistan. CM Punjab Mian Shahbaz Sharif.

In ceremony Federal Minister for Planning, Development and Reforms Dr. Ahsan Iqbal stated that CPEC will play vital role to attain the targets of Vision 2025 and Sahiwal Coal Power Project is part of it. He said that the friendship between Pakistan and China from decades is being translated into economic ties extensively first time in the history. He said that the world acknowledges the present policies of development initiated by current government to boost up the economy.

Sahiwal Coal Power Project is a part of CPEC. Federal Minister Dr. Ahsan Iqbal

At the event Vice-Chancellor UET Lahore Prof. Dr. Fazal Ahmad Khalid said that to come true the dreams for the concrete development, the trends of modern world must be observed to follow. VC said that it is matter of pride for UET, Lahore that Chinese Company chose it to train the engineers for energy projects launched in Pakistan. VC UET briefed about the training.

The trends of modern world must be observed to follow for development. Vice-Chancellor UET Lahore

In the event Chinese Counsel General YU Boren said that China seeks strong and long term result oriented bilateral relations with Pakistan. Chief Executive Officer HSR, Song Tiaji expressed hope that after successful completion of training, the engineers will perform to stabilize the economy of Pakistan. At the end, Chief Minister Mian Muhammad Shahbaz Sharif distributed certificates among engineers in the presence of MNA Pervaiz Malik, MPA Ch. Akhtar Ali, Deans, trainers, faculty, University administration and huge number of students.

China seeks strong and long term bilateral relations with Pakis Yu Boren

First Industrial Open House at UET Sub Campus Narowal

China Pakistan Economic Corridor is a big opportunity which will bring Pakistan into the top economics of the world. It is also great chance for engineers to learn and deliver for the prosperity of Pakistan. It was stated by Federal Minister for Planning, Development and Reforms Prof. Dr. Ahsan Iqbal while addressing to first graduate batch of University of Engineering and Technology Lahore Sub Campus Narowal on the occasion of first Industrial Open House 2016 of the Sub-campus on 5th June 2016. In the event the projects of the final year students were also displayed. At the moment Vice Chancellor UET Lahore Prof. Dr. Fazal Ahmad Khalid, Vice Chancellor University of Education, Lahore Prof. Dr. Rauf-e-Azam, Chairman Pakistan Engineering Council Engr. Javed Saleem Qureshi, Chinese delegation, DCO Narowal, Industrialists Aarif and Qaiser Shabbir, Deans UET Lahore, Registrar, Faculty, Public Relations Officer and students were present. In the event Federal Minister said that UET Narowal Campus was a dream which will be definitely beneficial to provide high skilled resource at door step. He said that present government is totally focused on the promotion of engineering education in throughout Pakistan which is big change agent to bring development.

CPEC will bring Pakistan into top economies of the world.

Federal Minister Dr. Ahsan Iqbal

Chairman Pakistan Engineering Council Engr. Javed Saleem Qureshi said that the future of Narowal and its surroundings will be changed in next few years due to UET sub campus Narowal. He said that PEC is launching complement online registration for fresh graduates and also registration will be started for students in their first semester. He announced that PEC will give amount of Rs. 10 Lac for best project of the country.

UET Sub campus Narowal will be beneficial for Narowal and its surroundings: Chairman PEC

Meanwhile, Vice Chancellor UET Lahore Prof. Dr. Fazal Ahmad Khalid said that only quality and Outcome Based Education can be beneficial for the growth of a country at large. He said the UET has firm belief in strong liaison between industry and academia and for this purpose University is making effort. In closing session shields were distributed among graduates and guests. After the event guests visited the site area of the Civil works of the sub-campus.

Only quality and Outcome Based Education can be productive for the growth of a country: VC UET Lahore

Seminar on Pakistan Power Crisis and Industry Specific Solution

Centre for Energy Research and Development- University of Engineering and Technology, Lahore in collaboration with New Silk Route Enterprises and Chinese Western power-a Chinese power generation company, organized a seminar on "Pakistan's Power Crises: Industry specific solution planning, Management and Financing at a private hotel on 5th April 2016. In this seminar Provincial Minister for Finance Dr. Ayesha Ghous Pasha, Minister for Mines and Minerals Ch. Sher Ali, Vice-Chancellor UET Lahore Prof. Dr. Fazal Ahmad Khalid, Secretary Energy Asad Rehman Gillani Vice-President Western Power Li Renchao, Chairman NSR Farooq Amjad Mir and Director KICS UET Prof. Dr. Waqar Mehmood along with representatives from various industries were present. In the seminar Provincial Minister for Finance Dr. Ayesha Ghous Pasha said that Punjab Government is focusing on the stability of economy and taking initiatives for the betterment of people at large. By doing this the opportunities for standard life and other productive assignments will be enhanced. In this regards govt. has started different projects to overcome the issue to cater energy crisis.

Government is focusing on the stability of economy and taking initiatives for the betterment of people.

Provincial Minister Finance Dr. Ayesha Ghous Pasha

At this occasion the Minister of Mines and Minerals Ch. Sher Ali said that the government is committed to resolve the power crisis which has become the core issue of the country now. He said that all available resources and fuel will be utilized for producing energy as per the acceptance of the international world.

Government is committed to resolve the power crisis.

Provincial Minister Ch. Sher Ali

In the meanwhile, Vice-Chancellor UET Lahore Prof. Dr. Fazal Ahmad Khalid said that it is golden opportunity to discuss policy and other energy related issues under one umbrella. He informed that UET Lahore is already working with number of Chinese companies to cater down the challenge of power crisis. In seminar Vice President China western power Li Renchao said that china seeks the sharing of ideas and expertise with Pakistan in energy sector. It is observed that finance is big issue for industry of Pakistan to contribute in energy in this regards we offer our support to assist industry in finance, planning and management. The Chairman NSR Farooq Amjad Mir focused to consider the offers of Chinese company to stabilize industry in energy sector. At the end shields were presented to guests.

UET Lahore is working with Chinese companies against power crisis. VC UET Prof. Dr. Fazal Ahmad Khalid.

Seminar on Pakistan Day at Alhamrah Hall

Punjab government believes in youth empowerment at all levels. Because youth is considered as precious asset for development of any country. In this regards, young generation should keep the spirit to deliver for the prosperity of Pakistan. It was expressed by Provincial Minister for Education and Youth Affairs Rana Mashhood Khan while addressing to teachers and students in a seminar on "Pakistan Day" arranged by University of Engineering and Technology, Lahore held at Alhamara Hall on 17th March 2016. The Minister said that there will be no compromise on merit. Because it is core feature of present administration and it is need of the time to stable Pakistan socially and economically.

Punjab government believes in youth empowerment at all levels. Provincial Minister for Education and Youth Affairs Rana Mashhood Khan

At the seminar Vice-Chancellor UET Prof. Dr. Fazal Ahmad Khalid said that harmony, tolerance and progressive approach always build the society. It was also main objective for the emergence of Pakistan to establish productive and leading environment for better living. He said that we should follow the vision of Muhammad Ali Jinnah, Allama Iqbal and other legends in our life to come true the dreams.

The harmony, tolerance and progressive approach always build a nation. Vice Chancellor UET Lahore Prof. Dr. Fazal Ahamad Khalid

Meanwhile Ex-UETians famous TV anchor Shamooin Hashmi and historian Hassan Jaffar Zaidi presented critically comparison between past and present conditions of Pakistan and emphasized on youth to prepare themselves for the upcoming challenges. In seminar Vice-Chancellor Prof. Dr. Fazal Ahmad Khalid presented crest to Minister for Education and Youth Affairs Rana Mashhood Khan and other guests.

Industrial Open House & Career Fair '16

Punjab government is taking measures to decrease the unemployment. In this line many projects are operating to empower the youth with skills, decisions and jobs. It was said by Provincial Minister for Excise and Taxation Mujtaba Shuja-ur-Rehman while addressing at University of Engineering and Technology, Lahore on the inaugural ceremony of 2-days International Open House and Career Fair-16 on 7th April 2016. He expressed that the public-private partnership can be supportive to engage the youth and it will also assist the varsities to produce the skilful persons as per requirement of industry.

Punjab government is taking measures to decrease the unemployment. Provincial Minister for Excise and Taxation Mujtaba Shuja-ur-Rehman

At the occasion Vice-Chancellor Prof. Dr. Fazal Ahmad Khalid said that the linkage between academia and industry can get rid the country of crises at large. He said that UET is producing quality of skilled persons. In this regards, industry should come forward to hunt the talent for the growth of economy.

The linkage between academia and industry can get rid the country of crises. Vice Chancellor UET Lahore Prof. Dr. Fazal Ahmad Khalid

In the ceremony the Convener of the event Prof. Dr. Muhammad Pervaiz said that job opportunities and internships offered by industry shows the symbol of coordination and cooperation between the stakeholders. So this kind of measures must be remained continue in future. Keeping in mind more than 100 companies participated in the event and 50 plus stalls were displayed where recruit process was done. The students of the final year presented their projects and skills which they learnt in series of event connected with this mega fair. At the end Vice-Chancellor Prof. Dr. Fazal Ahmad Khalid presented crest to Provincial Minister for Excise and Taxation Mujtaba Shuja-ur-Rehman. The event was concluded on 8th April.

2nd National Seminar On Energy Conservation

Country is facing energy crisis which has created gap between the demand and supply of natural gas in country presently. Therefore, to meet this challenge, energy conservation is an effective and applicable idea. It was expressed by Managing Director SNGPL & Ex-UETian Amjad Lateef while addressing in 2nd National Seminar on Energy Conservation arranged by Department of Chemical Engineering, University of Engineering and Technology Lahore with the collaboration of SNGPL at UET main campus on 10th March 2016. He said that the concept of energy conservation hits the sense of realization for financial saving which is the core aim of any business. It is the main responsibility to utilize this energy resource efficiently by adopting energy efficient gadgets at houses, industry and other production units. In this regards Universities must come up with innovative ideas and explore new sectors of research.

Energy conservation is an effective and applicable idea to tackle the energy crisis. MD SNGPL Amjad Lateef

At the event the Vice-Chancellor UET, Lahore, Prof. Dr. Fazal Ahmad Khalid said that areas of common interest between UET & SNGPL can be more explored and flourish the working relationship between both organizations. He briefed the audience about the working of UET in energy sector in which training the engineers for coal power plant Sahiwal & Solar Park Bahawalpur, energy degree programs, invention regarding energy sufficient equipment at domestic & Industrial usage. For awareness of energy conservation UET is ready to organize an International symposium.

Areas of common interest between UET & SNGPL can be more explored. Vice-Chancellor UET, Lahore Prof. Dr. Fazal Ahmad Khalid

In Seminar, Dean Chemical Engineering UET, Lahore, Prof. Dr. Nadeem Feroze and Chairman Chemical Engineering, Syed Javaid Naqvi, highlighted the inventions and modifications done by UET in different burners and other gadgets. Seminar was concluded with the visit of guests at exhibition arranged by Chemical Engineering Department and exchange or distribution of crests among guests by Vice-Chancellor Prof. Dr. Fazal Ahmad Khalid. Deans, Faculty, administration and big number of students were present at the moment.

Seminar On Bridging the Education-Practice Divide

A seminar on "Bridging the Education-Practice Divide: Developing Graduate Engineers who stand out from the crowd" was held at University of Engineering and Technology, Lahore on 20th April 2016. Prof. Dr. James Trevelyan from University of Western Australia was the chief guest. He said that the gap between the education and its practice must be filled by linking up the liaison between academia and industry only applied and practical research can be fruitful to attain the tasks of progress. He stated that for becoming successful engineers, observation and monitoring the trends of modern world are key elements. Prof. James also wrote a book on how to become expert engineer. At this occasion Vice-Chancellor Prof. Dr. Fazal Ahmad Khalid said that academia-industry linkage is core objective to establish successful institutes. In this regards UET Lahore is making strong relations with different firms to get the practical exposure for future engineers. In the seminar Deans, Faculty, University Administration and numbers of students were present. At the end Vice-Chancellor Prof. Dr. Fazal Ahmad Khalid presented crest to Prof. James Trevelyan Australian academician.

Workshop on Energy Efficient Building Design

A 2-day workshop on Energy Efficient Building Design was conducted by Department of Architectural Engineering and Design University of Engineering and Technology, Lahore in collaboration with Auburn University of Alabama USA at UET main campus on 29th March 2016. Chairman Department of Architectural Engineering and Design Prof. Dr. Muhammad Arif Khan, Prof. Dr. Sabahat Arif and Dr. Salman Azhar were organizers of the event. In workshop American Architect and Emeritus Prof. Mr. Norbert Lechner from Auburn University Alabama said that the usage of energy in developing countries is increasing rapidly due to the massive consumption in daily life. It is need of time to take measures for conservations of energy and adopt energy efficient devices and constructions. He quoted USA where about 50% of all energy is used by buildings mainly to heat, coal and light. It will also definitely helpful in reducing the energy needed to heat, coal and light buildings will save money, reduce pressure on the power grid and where the energy comes from burning fossil fuels and reduce climate change.

Measures should be taken for conservation of energy by adopting energy efficient devices and designs.

Prof. Norbert Lechner

In the event acting Vice-Chancellor UET Lahore Prof. Dr. Abdul Sattar Shakir stressed to adopt effective and low cost strategies in designing and construct the buildings. In limited resources, we can get efficient systems through result oriented and applicable research. The Chief Guest of the closing ceremony day Chairman Planning and Development Board Government of Punjab Muhammad Jehanzaib Khan said that Government of Punjab believes in energy conservation and in this connection all kind of such activities will be facilitated at large.

Government of Punjab believes in energy conservation.

Chairman P&D Board Jehanzaib Khan

On the occasion Vice-Chancellor Prof. Dr. Fazal Ahmad Khalid said that wise and research based approach can consume the energy in adequate manner. In this regards a collective consensus must be developed among all stakeholders in result of proper consultation with each other. Various Energy efficient equipment and models were displayed at different stalls. Big number of architectures, engineers, designers and students attended the workshop.

Wise and Research based approach can consumethe energy in adequate manner. VC UET Lahore

A Seminar on Security Measures

Stereotyped image about police must be changed now. Because police department takes measures to protect the lives of public at any cost. It was said by Capital City Police Officer Capt. (R) Muhammad Ameen Vance while talking to the audience in a seminar on security measures held at main campus of University of Engineering and Technology Lahore on 27th April 2016. He said that the country is in war, so bringing the law and order situation at normal, department is making efforts. CCPO also stated that terrorism is a collective issue of the nation so the cooperation and coordination between police and public must be developed properly to cope this challenge effectively. In seminar Vice Chancellor UET Prof. Dr. Fazal Ahmad Khalid said that the progress of any country completely depends on the law and order situation which must be secured. It will definitely increase the confidence of public on departments and make a productive liaison between both sides. While admitting the sacrifices of police VC said that nation feels proud on police and acknowledge the services done by this department. In seminar Deans, faculty, administration and a large number of students of UET, Lahore were present. At the end Vice Chancellor Prof. Dr. Fazal Ahmad Khalid presented shield to CCPO Lahore Muhammad Ameen Vance.

First Meeting of UET Lahore Business and Advisory Council

The first meeting of University of Engineering and Technology Lahore Business and Advisory Council was held at campus on 26th May 2016. The meeting of council was presided by Chairman of body Vice Chancellor UET Prof. Dr. Fazal Ahmad Khalid. In the meeting VC said that need and expectations are the key features to build strong and fruitful relations among academia, practitioners and industry. In this regards this sort of initiative will definitely develop the productive lie to get the goals of Outcome Based Education System. He said that UET seeks the collaboration, coordination and cooperation of industry. In this regards university is ready to provide all sorts of facilities to make better economy of Pakistan with the help of production units.

Need and expectations are the key features to build strong and fruitful relations. VC UET Lahore, Prof. Dr. Fazal Ahmad Khalid.

The members of the councils stressed to revise the curricula as per needs of industry and projects may be given to students for solution and to bring all the efforts into main streamline. They also suggested to offer more and more membership of body to different organizations for addressing all sectors with their proper solution. In the meeting Asim Qadri, Rehan Riaz, Abudl Razaq, Zahid Ahmed Siddique, Dr. Touseef Touqeer, Dr. Javaid Iqbal EPA, Dr. Waqar Mehmood KICS, all Deans, Registrar and PRO of UET were present.

Int'l University of Kyrgyz Republic Inks an MOU with UET Lahore

An MoU signed on 24th Feb 2016 between University of Engineering and Technology, Lahore and International University of the Kyrgyz Republic, Bishkek, Kyrgyzstan on mutual collaboration on exchange of faculty, research scholars, students, lectures, training publishing of academic programs' material, short term academic programs and dual diploma program. On the behalf of UET Lahore Vice Chancellor Prof. Dr. Fazal Ahmad Khalid and from International University of the Kyrgyz Republic, Bishkek, Kyrgyzstan Dr. Asylbek A. AIDARALIEV, Chair of Board of Trustees signed the accord. The Vice-Chancellor Prof. Dr. Fazal Ahmad Khalid expressed his hope that this agreement would be beneficial and facilitative for the mutual interest of the both sides and will enhance the cooperation and coordination between both countries in higher

engineering education. The Chairman Board of Trustees International University of the Kyrgyz Republic, Bishkek, Kyrgyzstan Dr. Asylbek A. AIDARALIEV also visited and applauded the latest techniques and equipments installed in laboratories of different departments including Electrical, Mechanical, Civil and Al-Khawarzami Institute of Computer Sciences UET, Lahore. At the end both dignitaries exchanged souvenirs to each other's. Deans of all faculties, Registrar and PRO were present on the occasion. Deputy Director Higher Education Commission Govt. of Pakistan Bashir Muhammad attended the meeting as well.

MOU Signs Between CERAD UET & Zonergy Company

An MOU between Center for Energy Research and Development (CERAD), UET Lahore and Chinese Zonergy Company Ltd was inked at Vice Chancellor's Office on 22nd February, 2016, where the key persons from both sides along with Vice Chancellor UET Lahore Prof. Dr. Fazal Ahmad Khalid and Director KICS Dr. Waqar Mahmood attended it. The purpose of this MoU is to initiate further collaboration for the projects of mutual interest. Vice Chancellor UET chaired the meeting. Mr. Ma Yu, International Sales and Marketing Director Zonergy Company Ltd, described about their projects to the attendees. He expressed as to how efficiently the company has been working in the field. Prof. Dr. Fazal Ahmad Khalid, VC UET, then shared his views about this collaboration between CERAD UET and Zonergy Company Ltd and appreciated the efforts. VC UET also told about the Chinese Center and Chinese Language Training Centers functioning at the university. Dr. Waqar Mahmood, Director KICS, then briefed about this initiative and collaboration. Vice Chancellor, Prof. Dr. Fazal Ahmad Khalid, then presented a shield as a souvenir to Mr. Ma Ya, who in return also presented a souvenir to the Vice Chancellor.

MOU Inks Between UET Lahore & Pakistan Meteorological Dept

A Memorandum of Understanding inked between University of Engineering and Technology, Lahore and Pakistan Meteorological Department at campus on 24th March 2016. Meanwhile Vice-Chancellor UET Lahore Prof. Dr. Fazal Ahmad Khalid and Ghulam Rasool Director General PMD signed the document. The aim of this MoU is to formalize the liaison between UET Lahore and PMD to promote training exchange, workshops, research collaboration in the areas of mutual interest. Besides this, in the result of collaboration between both organizations a mobile based weather information service, covering 139 districts of Pakistan has launched. It will provide easy and speedy access to users to be updated about weather forecast. At the occasion Vice-Chancellor Prof. Dr. Fazal Ahmad Khalid said that it is an essential element for the welfare of public to develop strong link

of coordination and cooperation among departments. In this regard UET is making relations with government departments, industry and other organizations to attain the objective of knowledge based economy at large. Director General Pakistan Meteorological Department Ghulam Rasul said that the development of software regarding speedy information about weather will facilitate the masses. It will not only update the user about weather but also enable to forecast the situation of earthquake and flood. It has distinctive feature to recognize the accent of area for responding well. At the end Vice-Chancellor Prof. Dr. Fazal Ahmad Khalid presented crest to DG Pakistan Meteorological Department Ghulam Rasul.

Delegation from Taiwan Technical University Visits UET Lahore

Taiwan is big potential market in education and technology sector. Pakistan may extend its relation in the engineering education specifically to strength the connection between academia and industry of both countries with each other. It was expressed by Prof. Dr. Jerry Lin, Taiwan Technical University while his meeting with Vice Chancellor Prof. Dr. Fazal Ahmed Khalid at VC office UET, Lahore on 20th Feb 2016. Professor Dr. Lin said that for making concrete liaison with Taiwan, exchange program and other connected positive & productive activities might be started as per requirement of the time. At this occasion Vice Chancellor UET, Lahore Prof. Dr. Fazal Ahmed Khalid said that UET is open to sign MOUs on exchange programs, research and development and upgradation of infrastructure. He stressed to enhance the bilateral relations between Pakistan and Taiwanese Universities to bring the academia in each and every developing and progressive sector of engineering. At the end Vice Chancellor Prof. Dr. Fazal Ahmed Khalid presented crest to Prof. Dr. Lin.

Delegation of Chinese Businessmen Visits UET Lahore

A delegation comprised on Chinese Businessmen visited UET and met with Vice Chancellor Prof. Dr. Fazal Ahmad Khalid. VC briefed the delegation about university, its working and different projects. An MoU was also signed. At the end, Vice Chancellor presented shield to delegation.

Dr. Youn Visits UET Lahore

A meeting between Dr. Youn and VC UET Prof. Dr. Fazal Ahmad Khalid was arranged on a lunch to discuss future energy projects. In the meeting, Dr. Youn enlightened the beneficial funding opportunities in Korea. On the other hand, Vice Chancellor UET Lahore requested Dr. Youn to provide guidance in automating the battery testing facility and also requested him to arrange funding for UET from Korea. In an event in honor of Dr. Youn from Gwangju University Korea, Vice Chancellor Prof. Dr. Fazal Ahmad Khalid presented shield to Dr. Youn.

Secretary of Belarus Embassy in Pakistan Kirill G. DERYABIN Visits UET Lahore

Strong, productive and uninterrupted bilateral relations between Pakistan and Belarus can boost up the academic connections for progress. It was stated by Vice Chancellor University of Engineering and Technology Lahore, Prof. Dr. Fazal Ahmad Khalid while meeting with First Secretary of Belarus Embassy in Pakistan Kirill G. DERYABIN at VC office on 20th June, 2016. He told that many students from various countries are enrolled at UET in different programs. Meanwhile First Secretary Kirill G. DERYABIN said that Belarus is potential land for engineering which seeks connection with Pakistani engineering organizations. He assured that the embassy will facilitate to develop progressive liaison between both countries for promotion of engineering education. At the end Vice Chancellor Prof. Dr. Fazal Ahmad Khalid presented shield to First Secretary Kirill G. DERYABIN.

UET Celebrates International Women's Day

UET has firm belief in women empowerment through serious and productive measures because woman is integral part of society. It was expressed by the Vice-Chancellor University of Engineering and Technology, Lahore Prof. Dr. Fazal Ahmad Khalid in a seminar on International Women's Day on 8th March 2016 arranged by Department of Humanities with the collaboration of ASME Society UET at Campus's Auditorium. He said that women are major share of the population of Pakistan which are performing very tough tasks for society.

UET has firm belief in women empowerment through serious and productive measures. VC UET Prof. Dr. Fazal Ahmad Khalid

The guest speaker Dr. Atiya Syed emphasized that it is need of the clock to channelize the struggles and hardworking of women to bring them into main streamline of progress. At the end the Vice-Chancellor Prof. Dr. Fazal Ahmad Khalid presented crests to the guests.

213th Meeting of Academic Council of UET Lahore

213th meeting of Academic Council of University of Engineering and Technology Lahore was held at Chemical Hall in the campus on 22nd June, 2016. Vice Chancellor Prof. Dr. Fazal Ahmad Khalid presided over the meeting. In the session different academic affairs and recommendations sent by departments on various issues were discussed. The establishment of an office for international students, news academic programs, extension in completion of theses to different research scholars, nomination of 3 persons for each Board of Faculty were approved by the house.

UET Syndicate Approves Budget for 2016-17

University of Engineering & Technology Lahore Syndicate approved Rs. 2.836 Billion budget with deficit of Rs. 77.669 million for the year 2016-17. Chairing the 4/16 syndicate meeting, UET Lahore Vice chancellor Fazal Ahmed Khalid briefed on budget item wise on 30th June, 2016. A sum of Rs. 3497.21 million has been allocated for Development projects. It included Rs. 1923.526 million for Establishment of University of Engineering & Technology Lahore sub campus Narowal, Rs. 73.500 million for setting up of Center for Energy Research & Development at KSK Campus of UET Lahore and Rs. 1500 million for Strengthening of UET Lahore. A sum of Rs. 1203.572 million has been allocated for University research for the year 2016-2017. More over Rs. 120.456 million approved for the scholarship to the students.

Executive Director NAVTTC Visits KICS UET

Skilled workers are dire need of the country to get progress with the assistance of modern technology. NAVTTC is fulfilling the government's vision for building a developed industrialized and prosperous Pakistan. It was expressed by Executive Director National Vocational and Technical Training Commission Zulfiqar Ahmad Cheema during his visit at Al-Khawarzami Institute of Computer Sciences, University of Engineering and Technology, Lahore on 20th April 2016. Director KICS Prof. Dr. Waqar informed that UET has been providing the training to engineers since many years to contribute in the progress of Pakistan. Executive Director Zulfiqar Cheema visited the departments of institute and applauded the mechanism.

Dinner In Honour of HSR Trainees

China seeks strong relations with Pakistan at broader level in every sector. In this connection many MoUs are being signed. It was spoken by the Chief Executive Officer of Chinese Company- Huaneng Shangdong Ruyi (HSR) Mr. Song Taiji while during his address to trainee engineers of University of Engineering and Technology, Lahore at UET on 27th Feb 2016. He said that China is helping Pakistan to overcome the problems facing Pakistan now-a-days specifically in energy sector. In this regard an MOU was signed earlier between HSR and UET Lahore. As per accord HSR hired UET engineers to train them in Pakistan and China for six months each with the collaboration of both sides for Sahiwal Coal Project. at the occasion Vice Chancellor Prof. Dr. Fazal Ahmad Khalid said that interaction between Pakistan and China at every level will develop a strong line for progress. At this event, representatives from both sides performed their traditional activities and audience enjoyed it. Deans and administration of UET were also present.

New Modern Computer Lab of Electrical Engineering Department

The Modern Computer Lab built for Electrical Engineering Department was inaugurated on 1st April 2016 by the Vice-Chancellor Prof. Dr. Fazal Ahmad Khalid along with Dean Faculty of Electrical Engineering Prof. Dr. Sohail Aftab Qureshi, Prof. Dr. Tahir Izhar Chairman Department of Electrical Engineering Department, Dr. Ubaidullah Lab Incharge, and other teachers of the department were present.

New Modern Comp-Lab of Maths -Dept

The Modern Computer Lab built for Mathematics Department was inaugurated by the Vice-Chancellor Prof. Dr. Fazal Ahmad Khalid along with Dean Faculty of Natural Sciences, Humanities & Islamic Studies Prof. Dr. Shahid Rafique.

UET Olympiad 2016

Nuclear and missile programmes have made the defence system of Pakistan more strong and unbeatable and it can only be possible through hard work, devotion and patriotism. These views were expressed by the famous atomic scientist Dr. Samar Mubarak Mund in University of Engineering and Technology, Lahore while addressing to the participants at seminar of leadership at 6-day Olympiad'16 arranged by ASME society on 3rd May 2016. He described that Pakistani scientists and specifically UET graduates have served a lot in nuclear and missile programmes which shows their extreme patriotism. On this occasion famous Director, Artist and Script Writer Adeel Hashmi said that legends' following always push on the track of progress. Vice Chancellor UET Lahore Prof Dr. Fazal Ahmad Khalid said that self-reliance is the key to maintain the solidarity and autonomy of country through which prominent and significant status can be attained. Dr. Fazal Ahmad Khalid also presented memorable shield to the atomic scientist Dr. Samar Mubarak Mund. A number of teachers and students participated in the event.

VC UET visits Site of Narowal Campus

Vice Chancellor University of Engineering and Technology Lahore Prof. Dr. Fazal Ahmad Khalid visited the sub-campus of UET Lahore at Narowal on 7th May 2016. He was briefed about the construction and related civil works going on at site. VC also visited the site and instructed to complete it in time.
